Summary

Senior Frontend Engineer with 8+ years of experience in React, TypeScript/JavaScript, and Redux across travel, marine, and marketing domains. At LTIMindtree, boosted app load speed by 95% and enhanced UI efficiency by 99%. Recently built scalable UI for Amex using React and Next.js.

Open to relocation.

Experience

LTIMindtree Sept 2021–Present Senior Software Engineer Noida

Project:

Amex (American Express Global Business Travel) - Advanced Mid Office System - Travel Industry

- Worked as an Individual Contributor, actively engaging in technical discussions and decision-making to optimize system performance.
- Designed and developed UI using **ReactJS** and **NextJS**, with state management handled by **Redux**, ensuring optimal app performance.
- Improved code efficiency by 95.57% through strategies like **lazy loading**, preload, **SVG** components, and named imports.
- Used Chrome DevTools and Lighthouse to profile and debug performance bottlenecks, improving page load speed and UI responsiveness.
- Collaborated with the **CI/CD** team to enhance build pipelines and automate deployments, ensuring faster and more reliable releases.
- Used **Docker** to containerize frontend services and ensure consistent development environments across local and staging setups.

Freedom (American Bureau of Shipping) - Marine Industry

- Designed and developed UI using **ReactJS**, **Redux**, and **Reselect** to manage state efficiently, integrating REST APIs to enable seamless data flow and real-time user interactions.
- Integrated IBM Maximo for work order management and Oracle databases for secure storage of inspection, billing, and task data.
- Enhanced handling of large tree structures within the Verification Points module, achieving a 99.61% improvement in efficiency using concept of **virtualisation**.
- Developed a **Cordova**-based Windows application to enable offline access for surveyors, utilizing JSON Store for local data storage and automatic data syncing.

Successive Digital April 2019 – Sep 2021 Lead Technology Noida

Project: Dentsu Plan Manager (Dentsu Aegis Network Ltd) - Marketing Industry

- Led the UI team, ensuring the efficient delivery of tasks and actively contributing to project phases from requirements gathering to implementation.
- Developed UI using **ReactJS**, with state management handled by **Context API** and **Apollo State Management**, ensuring optimal app performance.
- Maintained high code quality standards with **SonarQube**, ensuring coverage remained above 80%, and promoted best practices through code reviews.
- Implemented secure authentication systems using **JWT** and **Azure Active Directory** for multi-factor authentication.
- Integrated **Microsoft Teams API** through Azure to enhance collaboration features within the application.
- Contributed to the development of a Micro Frontend architecture and integrated **GraphQL** (Apollo), **Node.js** and **MongoDB**, streamlining API interactions and backend connectivity.
- Utilized **Apollo GraphQL**, **NodeJS**, **TypeScript**, and **ExpressJS** for seamless server-side integration, improving backend efficiency.

SDG Corporation July 2016 – March 2019 Associate Software Engineer Noida

Project: Mashups (General Electric Digital) - Software Industry

- Developed **React.js** and **AngularJS** applications, implementing **data visualizations** with Highcharts and Chart.js.
- Ensured **cross-browser compatibility** and optimized **client-side performance**.
- Managed source control using **Git**, **SourceTree**, and established **code review best practices**.
- Contributed to **Agile SDLC** and led sprint demos for stakeholders.

Technical Skills

Languages

HTML, CSS, JavaScript (ES6+), TypeScript

Frameworks and Libraries

ReactJS, NextJS, React Redux, ElectronJS, Cordova, Semantic UI

CSS Libraries

Bootstrap, MaterialUI, Ant Design, Tailwind

Cloud Platforms

Azure, Okta, AWS

Testing

Jest, React Testing Library, Enzyme

Bundling

Git, Webpack, Babel, NPM, Vite

Other

SonarQube, Jenkins, Git, Agile/Scrum, Postman, Chrome DevTools, Lighthouse

Soft Skills

Team Collaboration & Mentorship

Product Ownership & Critical Thinking

Strong Communication & Leadership

Problem Solving

Certifications and Awards

AWS Certified Cloud Practitioner

AWS

M220JS: MongoDB for JavaScript Developers

MongoDB

2022 - 2nd Quarter Award

American Bureau of Shipping

AI For Everyone Feb 2025 Coursera

Education

Noida Institute Of Engineering & Technology (NIET) April 2012 - May 2016 Bachelor Of Technology: Information Technology Full Time

Netaji Defence Academy April 2009 - July 2011 Science Full Time

Holy Cross School April 2005 - March 2009 Science Full Time
